

# STREET LIGHTING

Featuring the new [Ligman Santander](#)

**LIGMAN**  
LIGHTING USA

## TYPE IV

The Santander Pole Top luminaire combines aesthetics and focused, precision lighting with microVOST™ optics to provide a large range of light distributions and beam patterns.

## TYPE IV/II

Utilizing optical flexibility, a this single luminaire could produce the same lighting solution and distributions as two separate luminaires on a single pole. This example shows a hybrid of Type IV and Type II.

## TYPE IV/I

This example shows a hybrid of Type IV and Type I. Utilizing optical flexibility, a this single luminaire could produce the same lighting solution and distributions as two separate luminaires on a single pole. This example shows a hybrid of Type IV and Type I.
