

March 20, 2020

In response to the changing environment surrounding the presence of COVID-19 in our communities, I wanted to make sure you know that Performance Lighting Systems is fully operational. Over the past several years, Performance Lighting Systems has invested in technology that would allow our teams to work remotely to ensure there are no disruption in our service levels. Currently all teams are fully working remote and they have full access to our business systems.

Our Irvine office is currently not allowing visitors until further notice to provide additional safeguards to our employees and their families. The health and safety of our employees, manufacturer partners and customers is our top priority.

We are here to serve you and we are fully equipped to assist you in any way necessary.

Performance Lighting Systems is committed to exceeding expectations for our customers during these unprecedented times.

For a complete Performance Lighting Systems contact list visit our website:
