MAKE A BREAK FOR IT

Hyphen gives you creative control to interrupt continuous runs and plan patterns with punctuation. Discrete and ultra-narrow aesthetics combine with a comprehensive collection of optics, outputs, lengths, mounts and distributions—a solution for every need.

CONTINUITY CONNECTS

Used on its own or coordinated, Hyphen is the logical and complementary continuation of the ultra-narrow optical aesthetic of the Portal and Lines families.

The three inch height and 0.71" wide optic align the Hyphen, Portal and Lines families.

... light connects architecture + humanity

FLUXWERX 

PRECISION COMFORT CONTROL CHOICE

Proprietary optics transcend typical point source applications with exceptional uniformity, lower energy densities and efficacies exceeding 125 lm/w.

Precise control and extraction features shape the light into high performance distributions with maximum visual comfort.

ADJUST LIGHT, NOT EXPECTATIONS

Hyphen provides the right amount of light exactly where you want it—in 10 and 20 inch increments and single and twin optical output configurations.

Hyphen Recessed is available in trim and trimless fixed variants and an adjustable version delivering a 60° lateral range of motion. No matter which you choose, you're never locked in.

Hyphen Surface goes even further. Change your mind, or your environment: Single and Twin Optic Hyphen Surface feature minimalist aesthetics and unique and specific functional forms, both delivering 90° vertical-motion and 360° horizontal rotational adjustability. With Hyphen, you're in complete control.
