

# FRESCO

## LIGHTING CONTROL COURSE | Downtown Los Angeles Location

Performance Lighting Systems is offering lighting controls courses for the 2020 Year. In this course, each attendee will learn about the Title 24 2019 Compliant lighting control system known as Fresco. Learning materials, access to resources and a presentation will be provided as well as the opportunity to get hands on experience with the physical devices shown. We understand your time is extremely valuable and our goal is to make this course just as valuable in creating expertise that will cut design time on future jobs and as well as create value in higher quality design. Attendees will have the opportunity to ask questions about the system during and after the session.

**Those attending do not need to have working knowledge of Fresco. Some nLight knowledge is recommended but not required. A brief overview of nLight will be covered in this course, but other courses covering nLight in depth are available.**

### Course Dates

Apr 23 | July 23 | Oct 22

### Location

Cross Campus, 800 Wilshire Blvd. 2nd  
Floor, Los Angeles, CA 90017  
Conference Space Training Center

### Time

Prompt start at **1 pm**

### Parking

Limited visitor parking at the Cross Campus Bldg!  
We suggest the following:  
•Arrive by vehicle: nearby public parking at  
"THE BLOC, West 7th Street, Los Angeles, CA"  
•Arrive by MetroLink: "7th Street / Metro Center"

## By the end of the session you should be able to:

- »Be able to select nLight devices, such as power packs, fixtures, switches and sensors based on functionality required for a space.
- »Understand the basics of DMX and the Fresco's capabilities with DMX fixtures and LMP devices.
- »Understand the capabilities of the Fresco's integration with AV or BACNET systems.
- »Understand and demonstrate zoning/grouping hierarchies to setup Channels on the Fresco touchscreen.
- »Document Fresco information based on the install such as sticker sheets, labeling and identification of devices to confirm proper installation.
- »Have a deeper understanding on the what is needed to prepare a Fresco Network and cover general programming requirements to meet Title 24 2019 Compliant or Customer Requests, including scheduling.
- »Claim hands-on Fresco experience and a deeper understanding of the startup and troubleshooting processes.

Space is limited, so please RSVP as soon as possible to:
